Wednesday 13th December 2017

Dear Parents and Carers of Year 2, 3, 4, 5 and 6 children,

Maths Progress Assessments – Year 2, 3, 4, 5 & 6

In response to parental feedback, we sent you your child's arithmetic assessment paper earlier in the term. This assessment paper shared high quality, year group specific outcome data to provide information to parents/carers about areas for focus for improving their child's mathematical confidence and understanding.

We have now taken the decision to increase what is shared this half term by sending home both your child's arithmetic and reasoning paper that they have recently attempted.

The reasoning paper is a much more detailed analysis of your child's needs and we would recommend that every parent/carer takes the time to go through your child's outcomes with them.

We would recommend that you take time to work with your child over the holiday period to correct any errors in their arithmetic and reasoning paper. Teachers would welcome you returning any completed paper in the New Year to share your child's efforts in tackling any outstanding calculations.

These maths papers are shared every half term so as to keep you informed as to how your child is progressing, which skills children need consolidation and where regular practise needs to be targeted.

We hope that you find this information useful and look forward to working together to secure exceptional outcomes and progress for all.

Yours sincerely,

Mr Robinson
Headteacher
